APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion, place of use, and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 33088, Certificate 9273, is issued subject to the terms and conditions imposed in said Permit 33088, Certificate 9273, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined amount of water granted under this permit and Permit 36270 is limited to what the well covered under the two permits is capable of producing. If certificates of appropriation are issued under this permit and Permit 36270, the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the two permits is capable of producing.

The total combined duty of water under this permit and Permits 36270 and 36271 shall not exceed 26.07 million gallons annually.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.0911.....cubic feet per second, but not to exceed 8.69.....million gallons annually.....

Actual construction work shall begin on or before.....September 16, 1979.....

Proof of commencement of work shall be filed before.....October 16, 1979.....

Work must be prosecuted with reasonable diligence and be completed on or before.....September 16, 1980.....

Proof of completion of work shall be filed before.....October 16, 1980.....

Application of water to beneficial use shall be made on or before.....September 16, 1983.....

Proof of the application of water to beneficial use shall be filed on or before.....October 16, 1983.....

IN TESTIMONY WHEREOF, I, WILLIAM J. NEWMAN
State Engineer of Nevada, have hereunto set my hand and the seal of
my office, this 16th day of MARCH

A.D. 1979

William J. Newman
State Engineer

Three applications to change are being made to transfer permits to two wells which will be commingled to serve a community water system.

The total of the three applications allow a diversion of 0.2733 cfs. The pumping ratio to serve the community water system will not exceed 0.2733 cfs from this well or the two wells combined. It is understood the total water withdrawn from either or both wells will not exceed 80 acre feet per annum.

The total number of units to be served is one-hundred sixty-five (165) mobile homes.

PERMIT TERMS (Continued)

The granting of this permit further allows a maximum diversion rate of 0.273 c.f.s. from the well covered by this permit and Permit 36270, but limits the total diversion rate at any one time from this well and the well covered by Permit 36271 to 0.273 c.f.s.
